Experienced software engineer with 5+ years developing scalable web applications and microservices. Proven track record in full-stack development, cloud architecture, and team leadership. Passionate about building reliable systems that serve millions of users.

EDUCATION

Massachusetts Institute of Technology 09/2017 - 05/2019

- Master of Science in Computer Science
- GPA: 3.8/4.0
- Thesis: Distributed Systems for Machine Learning
- Relevant Coursework: Advanced Algorithms, Computer Systems

University of California 08/2013 - 05/2017

- Bachelor of Science in Computer Science
- Magna Cum Laude, GPA: 3.7/4.0
- Dean's List for 6 semesters
- President of Computer Science Club

EXPERIENCE

Tech Solutions Inc 06/2021 - Present

Senior Software Engineer

- Led development of microservices architecture serving 1M+ users
- Improved system performance by 40% through optimization
- Mentored 5 junior developers and conducted code reviews
- Implemented CI/CD pipelines reducing deployment time by 60%

StartupXYZ 07/2019 - 05/2021

Software Engineer

- Built RESTful APIs using Python/Django framework
- Developed frontend components with React.js
- Collaborated with product team on feature specifications
- Maintained 99.9% uptime for production services

SKILLS

Programming Languages

- Python (Expert)
- JavaScript (Advanced)
- Java (Intermediate)
- SQL (Advanced)

Frameworks & Tools

- React.js, Django, Flask
- AWS (EC2, S3, RDS, Lambda)
- Docker, Kubernetes
- Git, Jenkins, Terraform

PROJECTS

E-commerce Platform 03/2023 - Present

Full-stack Developer

- Built scalable e-commerce platform with React and Node.js
- Implemented payment processing with Stripe API
- Added real-time inventory management system
- Deployed on AWS with auto-scaling capabilities

ML Price Predictor 01/2022 - 04/2022

Machine Learning Engineer

- Developed ML model for stock price prediction using Python
- Achieved 85% accuracy using ensemble methods
- Processed and analyzed 10M+ data points
- Built interactive dashboard with real-time predictions
